How to exit the Vim editor?

[Ask Question](#)

I'm stuck and cannot escape. It says:

2659

```
"type :quit<Enter> to quit VIM"
```

But when I type that it simply appears in the object body.

vim vi

Are you just trying to quit VIM ? If this is the case, press "escape" and then type ':q' – [Pop](#) Aug 6 '12 at 12:28

Don't forget the **colon**! You should type `:quit` and then hit the `[ENTER]` key. – [Farahmand](#) Mar 4 '14 at 18:33
